Current Topics in Biophysics

publishes the original biophysical research in English. Reviews (in English or in Polish) and theoretical articles are also accepted.

Manuscripts should be submitted in duplicate to Prof. Feliks Jaroszyk, Department of Biophysics, Karol Marcinkowski Academy of Medicine, Fredry 10, 61-701 Poznań, Poland.

Subscription orders should be sent to ZARZĄD GŁÓWNY of the Polish Biophysical Society, Institute of Biophysics, University of ŁÓDŹ. Annual subscription rate: US 20\$ for individual subscribers and US 30\$ for Institutions. Additional rate for airmail: US 5\$ (Europe) or US 10\$ (overseas countries). Subscription should be paid into account: PBG III O/ŁÓDŹ No. 344654-3098-132-6

The publication of this journal is aided by a grant from the State Committee for Scientific Research (KBN).

INFORMATION FOR CONTRIBUTORS

I General

1. The Editors of *Current Topics in Biophysics* are prepared to accept direct experimental studies, reviews and theoretical articles. Papers submitted may deal with any problem relevant to biophysics.
2. Papers may be submitted in English to:
Prof. dr Feliks Jaroszyk, Department of Biophysics, Karol Marcinkowski Academy of Medicine, Fredry 10, PL-61-701 Poznań, Poland.
The submission of the manuscript is regarded as the author's statement that it has not been published (or submitted for publication elsewhere).

II Specific

1. Manuscript and illustration should be submitted in duplicate. Double-spaced typing and at least 2 cm margins are required. The length of the manuscript is not limited.
2. The first page must include: the title; name(s) of author(s), affiliation(s); short running head (no more than 50 characters include. spaces); a detailed address for correspondence.
3. References should be cited in the text by giving the last name of the author (or authors) followed by the year of publication in parentheses, e.g. Reich (1970), Liboff and Furst (1974). If there are three or more authors, citations, beyond the first, need give only the first author, e.g. Pineri, Escobues and Roche (1978) becomes Pineri et al. (1978). If there is more than one work by the author (or authors) in a given year, then label them alphabetically within each year, e.g. Lang (1966a, 1966b).
4. The full references should be typed on a separate page (or pages) placed at the end of the article and should not be given as footnotes. They should include the names of all the authors and their initials, the year of publication in parentheses, the full title of the article or book, the standard abbreviated name of the journal, the volume number and the pages; and, for books, the city of publication and the publisher. The following may serve as illustration:
Stepień K. & Wilczok T. (1982). Studies of the mechanism of chloroquine binding to synthetic DOPA - melanin. *Biochem. Pharmacol.*, **31**, 3359-3365.
Gennis R. B. (1989). *Biomembranes. Molecular Structure and Functions*. Springer-Verlag, New York.
5. The illustration should be sent with the paper, but should not be affixed in place. The proper places for insertion, however, should be indicated in the text. All photographs, graphs and diagrams should be referred to as "Figures" (abbreviated to "Fig.") and should be numbered consecutively. The legends should be typed, correspondingly, on a separate page at the end of the article. The author's name, the figure number, and an indication of its proper orientation should be written lightly on the back of each figure.
Color illustration can be published only at author's cost and the cost estimate will be sent to the author for his approval after submission of the manuscript.
6. Tables should be numbered consecutively in Arabic numerals.
7. Legends must begin on a new page and should be as concise as necessary for a self-sufficient explanation of the illustration.
8. Authors are encouraged to submit the final corrected manuscript together with its electronic version on PC-compatible discs (5.25 or 3.5 in.). Discs files should preferably be in Word for Windows (v. 2.0 or 6.0) or in ASCII format.
