|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|
| <b>Jan Gomulkiewicz, Michał Bartoszkiewicz, Stanisław Mięksiz -</b><br>Some Remarks On Ion Transport Across Excitable Membranes.<br>1. The Stationary State .....                                                                                      | 3  |
| <b>Danuta Frąckowiak -</b><br>Application Of Photothermal Methods In Biophysics And In Medicine .....                                                                                                                                                  | 11 |
| <b>Andrzej Makowski, Władysław Wardas -</b><br>Photocatalytic Degradation Of Toxins Secreted To Water<br>By Cyanobacteria And Unicellular Algae And Photocatalytic<br>Degradation Of The Cells Of Selected Microorganisms .....                        | 19 |
| <b>Bogdan Chmiel, Bolesław Turczyński, Stanisław Szczęsny,</b><br><b>Lech Cierpka, Krzysztof Zagalski, Ludmiła Słowińska -</b><br>The Influence Of A Nitrogen Oxide On Erythrocyte Deformability<br>In Rats Exposed To Stress Of Water Immersion ..... | 27 |
| <b>Tadeusz Janas, Teresa Janas, Krzysztof Nowotarski -</b><br>The Role Of Polyprenol In Modulation Of Physical Properties Of<br>Model Membranes .....                                                                                                  | 33 |
| <b>H. Ti Tien, Angelica L. Ottova -</b><br>Hydrogen Generation From Water Using Semiconductor Septum<br>Electrochemical Photovoltaic (Sc-Sep) Cells .....                                                                                              | 39 |
