

CONTENTS

[1-3] – **Title pages**

[4] – **Author index**

[5-9] – **Plenary lectures**

[5] - **Bioelectrodynamics of cellular organization and interactions**

M. Cifra

[5] - **Superparamagnetics in the hyperthermic treatment of cancer - hopes and limits**

L. Kubisz

[5] - **The effect of ac magnetic fields on the germination of seeds.**

L.Kubisz, R. Hołubowicz, M. Gauza, H. Li, D. Hojan-Jezińska F. Jaroszyk.

[6] - **Efficacy of homeopathic remedies on magnetic fields in the mhz-region by magnetic resonance.**

K. Lenger, R. P. Bajpai, M. Spielmann

[6] - **The fundamentals for the extra-cellular and inter-organ electromagnetic communication in the khz range.**

K. P. Michalak

[7] - **Quasi-quantum effects in biological systems**

M. Molski

[7] - **Energy production and fröhlich's polar vibrations in cancer cells**

J. Pokorný

[8] - **Modification of the surface of collagen films by uv radiation**

A. Sionkowska

[8] - **From mitogenetic to necrotic radiations – toward the photon cycling in biological systems and electromagnetic existence**

J. Sławiński

[10-19] - **Posters**

[10] - **New tool for oxidative changes imaging during systemic acquired resistance establishment in plants**

D. Abramowski, Z. Górski, J. Floryszak-Wieczorek, Ł. Janus

[10]- **A new olfactory system model based on the docking experiment**

K. Eitner, C. Grzywniak, A. Fornalik, J. Marciniak, T. Gawęda, M. Narożny

[11]- **FGF2-FGFR2 binding domain complex as a model system for studies of electromagnetic field effects on brain cells**

J. Estkowska, Ł. Peplowski, W. Nowak

[11] - **Studies of current-voltage relationship for fish collagen**

M. Gauza, L. Kubisz

[12] - **Investigation of the applicability range of protein threading software**

S. Jaworski, C. Sikorska

[12] - **The research on infrared radiation fluctuation of breast cancer patients with the method of regulation thermography**

K. Krupka MD

[13] - **The hypothetical role of external static magnetic fields in chiral symmetry breaking phenomena observed in living organisms**

I. Mróz

[13] - **Effect of magnetic field, the red light and their combination on the oxygen-dependent mechanism of killing of neutrophils**

H. Nawrocka – Bogusz, F. Jaroszyk, K.P. Michalak

[14] - **Influence of near infrared radiation (nir) on structure of phenylalanine**

S. Olsztyńska-Janus, M. Komorowska

[15] - **Changes in distortion product of otoacoustic emission in tinnitus patients stimulated by the elf magnetic stimulation**

M. Pankowska, D. Hojan-Jeziarska, E. Skrodzka, E. Szymiec, L. Kubisz, T. Świdziński, A. Wicher

[15] - **Hydroxyl radical production in potato tuber during the hypersensitive response to fungus *phytophthora infestans*.**

A. Rastogi, P. Pospisil

[15] - **The ip vs. Vde competition as a key factor determining the stability of the $mgbx_5$ ($x = f, cl$) compounds**

C. Sikorska, P. Skurski, S. Jaworski

[16] - **The influence of uv irradiation on collagen from the fish scales**

A. Sionkowska, J. Kozłowska, P. Kubera

[16] - **Effects of electromagnetic radiation on biological material produced by insects**

A. Sionkowska, A. Płancka

[17] - **Quantum physics sheds some light on hado shiatsu**

P. Stefanini

[18] - **Does the near-infrared radiation (NIR) destabilize the dna molecule?**

K. Szyborska-Małek, M. Komorowska

[19] - **Molecular dynamics of contact lens hydrogels by 1H NMR methods**

A. Woźniak-Braszak, M. Kaźmierczak, J. Szczepaniak, K. Hołderna-Natkaniec

[19] - **In search of ionizing radiation effect on nucleosides: radiolysis of cytidine**

O. Zavyalova, A. Janiak, K. Misiura, S. Truszkowski, A. Chostenko

[19] - **Rapid dna sequencing via transverse electronic transport**

M. Zwolak, M. Di Ventura

[20-21] – Contents

[22-24] - ERRATUM
