PREFACE

Dear Colleagues,

On behalf of the members of the Organizing and Scientific Committees of the XVth Meeting of the Polish Biophysical Society I am very pleased and honored to welcome you to Nałęczów.

I am confident that all plenary lectures, communications and discussions will bring new insights to our research, initiate or strengthen scientific collaboration and friendly relationship between members of our Society.

Please accept my invitation to read the Book of Abstracts. On the basis of my rough analysis of the abstracts submitted to the conference I am very pleased to notice huge progress in our research since the early meetings of our Society, in the seventies of the last century. I am sure that the Polish Biophysical Society was not only a witness to this progress but also served as a catalyst of such changes.

Wiesław I. Gruszecki

President of the Polish Biophysical Society
